**TAKARA RESOURCES INC MOVING FORWARD ON DUE DILIGENCE RELATED TO LETTER OF INTENT WITH GOLD BULLION DEVELOPMENT CORP.**

April 7, 2015 – Takara Resources Inc. ("Takara" or the "Company") (TSXV:TKK) is continuing its evaluation and due diligence on Gold Bullion Development Corp.'s (TSX.V:GBB) wholly owned subsidiary Castle Silver Mines Inc. under the Letter of Intent as announced in the Company's March 11, 2015 press release. Takara continues to move toward the completion of a definitive agreement and is further encouraged by recent news released by Gold Bullion on April 2, 2015 on its Castle Silver Mines property which has recently identified significant structural trends containing gold mineralization in addition to its historic silver production.

Takara's management and board of directors are confident that with the newly-discovered gold mineralization along with existing silver potential that this property will add significant value to the shareholders of Takara now and into the future. As disclosed in Gold Bullion's April 2<sup>nd</sup>, 2015 Press Release: "In tandem with the previous gold findings announced December 8, 2014 at the Castle property, the geological team is working to identify target areas from zones trenched in November 2014. These latest new channel sampling results indicate a grade of 2.24 g/t Au over 2.20 m along Channel 4 in Trench D3 including one channel sample of 3.77 g/t Au over 1.27 m. In Trench D1, Channel B indicates a grade of 0.77 g/t over 3.98 m including a sample grading 1.25 g/t Au over 0.83 m. "

Frank Basa, President and CEO of Gold Bullion and Chris Hopkins President and CEO of Takara re-iterate that with the 2011 high-grade silver drill intersection (GBB press release August 25, 2011) and with recent gold mineralization now is an ideal time to promote the shareholder value for both Gold Bullion and Takara. Further information regarding the Castle Silver property can be found in Gold Bullion's 43-101 Technical Report dated August 15 2011 filed on SEDAR at [www.sedar.com](http://www.sedar.com)

Should the current Letter of Intent advance to a definitive agreement, completion of the transaction would be subject to all requisite regulatory approvals relating to the transaction, including TSX Venture Exchange approval.
