Castle Silver Grants Stock Options

December 5, 2017 - Castle Silver Resources Inc. (TSX.V: CSR, OTC: TAKRF, FRANKFURT: 4T9B) (the “Company” or “CSR”) announces it has granted stock options to its directors, officers, employees and consultants to purchase an aggregate of 2,550,000 common shares in the capital of the Company. The stock options are exercisable for a term of five years at an exercise price of \$0.30 per share. All stock options are granted in accordance with the terms of the Company’s Stock Option Plan and the policies of the TSX Venture Exchange and will be subject to a hold period of four months and one day.

About Castle Silver Resources

The Castle Silver mine, Beaver mine and Violet mine are three of the most advanced properties in the Cobalt Camp. While they comprise only 2,400 hectares they are sources of high-grade cobalt that can quickly be developed into a shovel-ready state. The company also has the Re-2OX process which has been pilot-plant-tested to separate the various metals that comprise the mineralization in the Cobalt Camp vein systems. The company has been to Japan and China to meet with buyers of cobalt-based salts that are used in the lithium battery market. Studies are underway to develop a milling processing facility and leach plant on one of the Castle Silver Resources’ properties.
